ALMA MATER

*We hail thee Alma Mater
With love and respect
And in all our hearts stand
Thy statues erect,
With colors that gleam of
The Royal and White,
May we keep our hearts
Forever all right.*

*When school days are over,
And childhood is done,
We will think of you always
And victories won.
We hail thee Alma Mater
So loyal and true,
We will think of you always
And sing praises of you.*

In Loving Memory
of
James Ryan Suggs

*God moves in a mysterious way
His wonders to perform;
He plants his footsteps in the sea,
And rides upon the storm.*

*Ye fearful saints, fresh courage take!
The clouds ye so much dread
Are big with mercy, and will break
In blessings on your head.*

*Judge not the Lord by feeble sense,
But trust him for his grace;
Behind a frowning providence
He hides a smiling face.*

*His purposes will ripen fast,
Unfolding every hour;
The bud may have a bitter taste,
But sweet will be the flower.*

*Blind unbelief is sure to err,
And scan his work in vain;
God is his own interpreter,
And he will make it plain.*

William Cowper

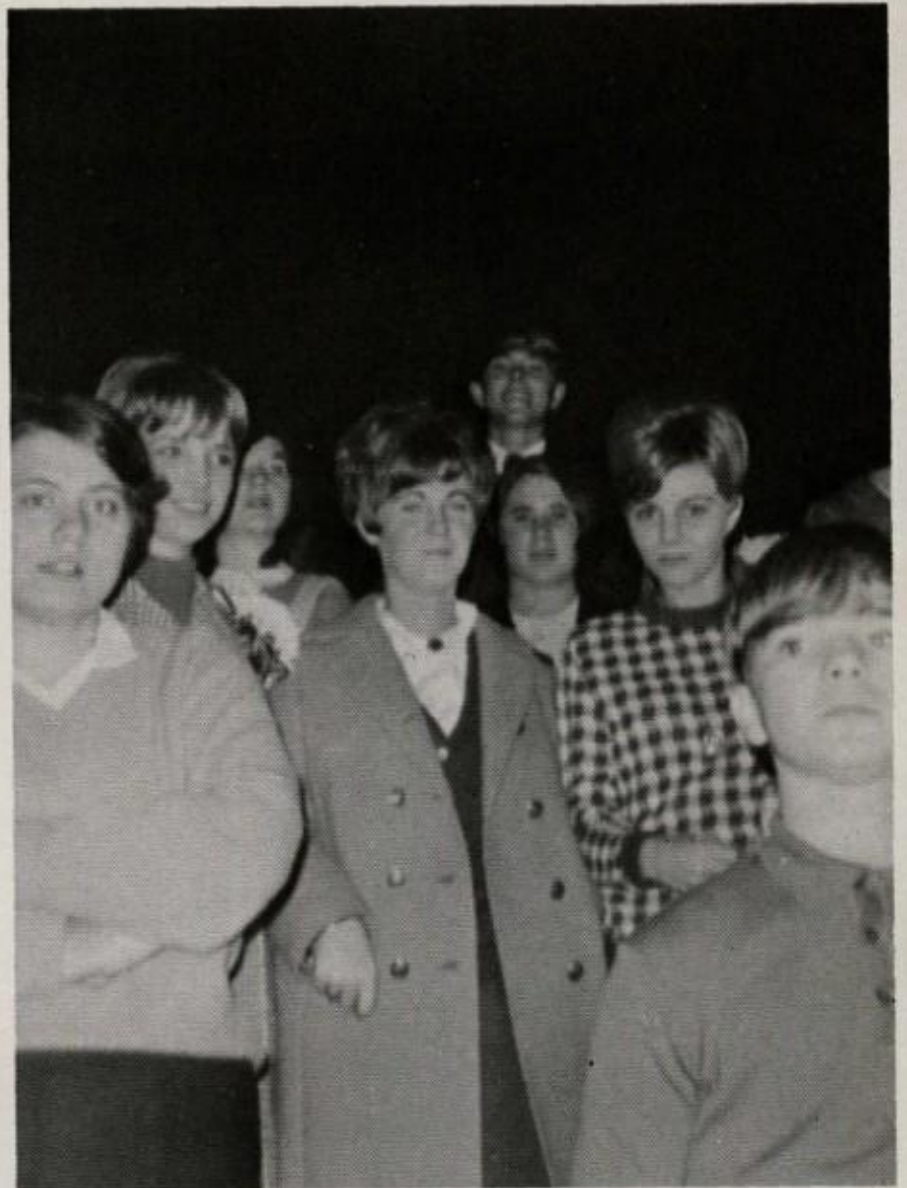

This Is

Our Year

Dedication

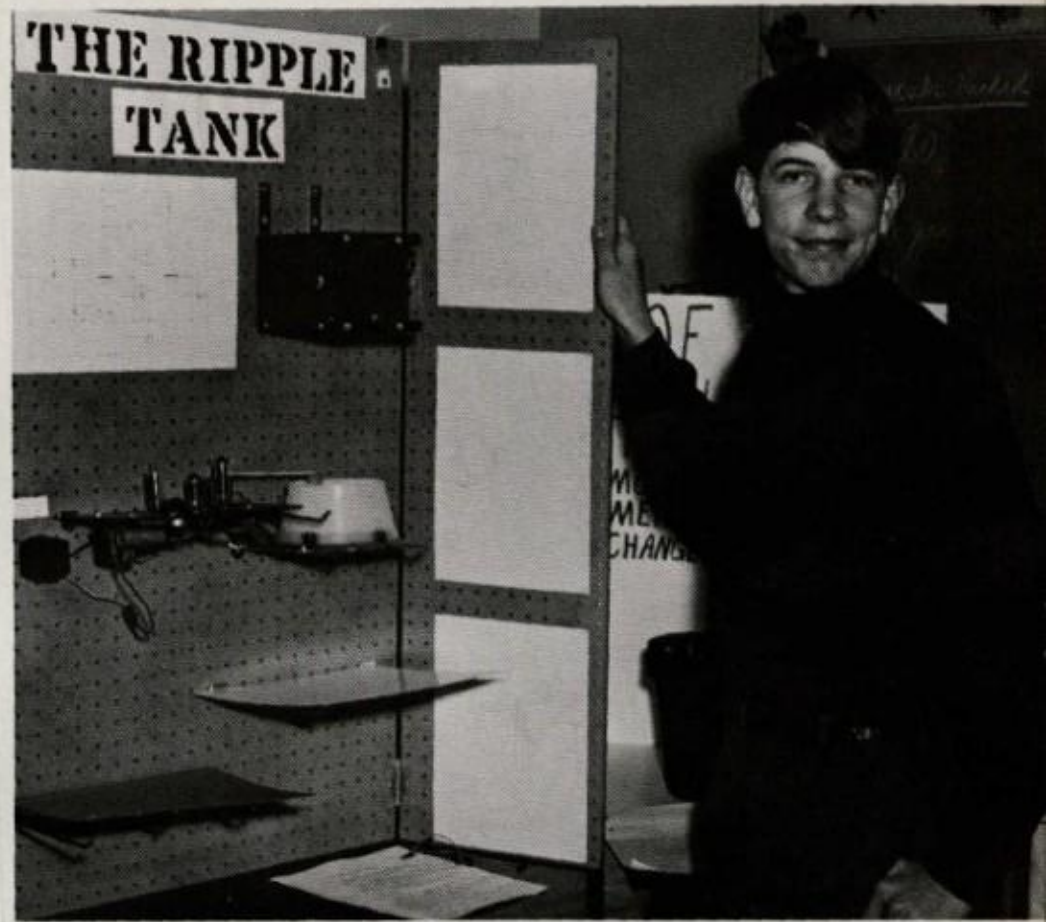

To one who has been a source of strength and inspiration to each of us; Who, with her sympathy and patience, has helped us face the storms of life in these our formative years. Therefore, with our love, respect, and devotion, we the Senior Class dedicate the nineteen hundred and sixty-eight edition of Warpath to MRS. MILDRED WARD.

ACTIVITIES

ACTIVITIES

Journalism Club

Through its news stories, features, editorials, sports stories, and columns, the Smoke Signals has endeavored to reflect campus life in all its phases.

The Smoke Signals, a newspaper of high school students, by high school students, and for high school students has made a genuine effort to stimulate interest in school activities, depict the life and growth of the school, encourage school spirit, provide an expression of student thought, and an outlet of creative work.

Annual Staff

People in all walks of life wish to look back upon their high school days in some way or another. An annual brings back fond memories to those who have walked the halls of Wampee.

By striving to make the Warpath bigger, better, and more interesting than any previous issue, the staff feels that this edition will be the best ever.

The staff presents to the student body WARPATH 1968.

The Wampee chapter of the Future Homemakers of America is perhaps the leading club in our school activities.

The goals of this organization are personal, family, and community improvement. To achieve these goals Future Homemakers participate in such activities as welfare projects, home projects, and degrees of achievement work.

The Future Homemakers promoted the Miss Wampee Pageant, the Christmas Dance, the Fashion Show, and numerous fund raising projects. Wampee High School owes a great portion of its advancement and expansion to their club.

Agriculture today is a broad and dynamic field which offers young men many challenging careers in the areas of production, marketing, processing, agricultural services, research, education and many other agricultural occupations. In our rapidly changing agriculture many jobs previously performed on the farm now are provided through commercial agricultural service operations. These agricultural services and occupations provide employment opportunities for a vast number of young men who would benefit from training in vocational agriculture. Professional and scientific agricultural positions requiring college degrees are demanding more young men.

Agriculture is an expanding industry and changes in agriculture will continue at a rapid rate and will increase in importance. At no time has it been so important that those who farm or enter other agricultural occupations have the best preparation that it is possible to provide.

Bus Drivers

Push the clutch, turn the key, shift the gears, and the bus is rolling. These actions take place twice a day, five days a week in ten buses. The classrooms would be empty without the bus drivers to bring the student body to fill the desks. Gratitude and appreciation is extended to them for the wonderful job they have done.

A black and white photograph of two women in a park-like setting. One woman is sitting on the grass, leaning against the base of a large, thick tree trunk. She is smiling broadly, with her hand near her mouth. She wears a dark, long-sleeved sweater and a light-colored skirt. The other woman stands to the right of the tree, looking down at something in her hands. She is wearing a plaid jacket over a light-colored top and a matching plaid skirt. She also wears dark shoes. In the background, a brick building is partially visible on the left, and trees and a fence are in the distance.

The 1967 football team was and is the most pleasant surprise in Wampee football. A surprise to everyone but themselves, because as early as last summer they had the quiet type of confidence that grows and grows until nothing appears impossible. Our schedule looked impossible but to them it was a challenge. Bitter defeat made them come back more determined than ever.

Qualities like courage, leadership, loyalty, dedication, sacrifice, unselfishness, and a winning spirit could well describe this group and are more important than just wins and losses.

The honors accorded this team are justly given for reviving the winning tradition in Wampee football.

Baseball

The exciting game of baseball is a sport which is enjoyed by Wampee students. In recent years baseball has brought Wampee a winning tradition. The upcoming team has their goal set on the conference championship and beyond. With all the players returning from last year's squad, it promises to be an exciting season.

STANDING: Harold Murphy, Ronny Riggs, Bill Ellis, Mitchell Ward, Mike Harrell, Robert Bell. SITTING: Bobby Livingston, Randall Stephens, Donald Edge, Mike Williams, Ricky Watts, Ronnie Bellamy, Jerry Anderson.

IN MEMORIAM

Mr. Milton L. Hendrix

Mr. Hendrix was a teacher for 3 years in Wampee-Little River school. He taught English and French. He was faithful and earnest in his work and always cheerful in his outlook on life. Teaching was to him the challenge of leading the student who was about to become wayward back to the straight and narrow pathway; it was the joy of removing the ignorance of other people, the opportunity to improve himself culturally, and the sublime principle of inspiring boys and girls to become useful and effective citizens and of instilling in his pupils the very best of ideals.

In the thoughts of her students and fellow teachers, he will long be remembered as a good teacher and good freinds.

Philosophy

We realize that our best efforts are achieved when harmonious cooperation and dedicated service are directed toward a common goal; therefore, we the faculty of Wampee-Little River High School make this statement of our philosophy.

We at Wampee-Little River High School believe that it is our responsibility, along with the home and other community agencies, to provide opportunities for acquiring skills, knowledge, and attitudes which will enable each student to make wise and intelligent choices as a citizen in our American free society. We believe that it is our duty and our privilege to strive for a school environment which will enable each student to develop to his fullest potential — physically, mentally, emotionally and socially. We recognize the fact that each student is an individual, and we do our best to accept each at his level of mental, physical, and emotional growth. We believe that it is our obligation to help each student lay the foundation for a future life which will prove both satisfying and productive. We encourage students toward their highest level of academic achievement and attempt to provide occupational and vocational instruction according to student need.

We endeavor to provide a school program that is adequate and flexible and that will, with the proper guidance and understanding, challenge each student to question more, reason more, exercise more initiative, and assume more responsibility in becoming an active citizen of our changing nation, world, and universe.

Wampee-Little River High
1966 Faculty and
Administration

Mr. David Stoney, Chairman of S.C. State Commission of Southern Association of Colleges and Schools, congratulating Mr. Henry L. Ingram, Principal of Wampee-Little

River High School on the schools receiving accreditation from Southern Association.

AIMS OF THE SOUTHERN ASSOCIATION

The Southern Region has been characterized by a strong interest in education and by the belief that education should be continuously concerned with the changing needs of its people. The Southern Association of Colleges and Secondary Schools was organized to improve educational conditions in the South and bring about close relationships between schools and colleges.

The Charter of the Southern Association places final responsibility for developing standards for, and the accrediting of, secondary schools on the Commission of Secondary Schools and its Delegate Assembly. The Commission takes the position that the chief purpose of accreditation should be the stimulation of improvement in the schools through varied means of which the enforcement of minimum standards is only one. Efforts of members of the Commission, therefore, primarily are directed to-

ward the development of standards and accreditation procedures which it is assumed will contribute to the continuous improvements of schools. With the accelerating nature of change in our culture today, this purpose partakes of a sense of urgency and would seem to suggest major focus on the critical areas of professional staff improvement and full utilization of staff and physical facilities.

In keeping with the above statements, Wampee-Little River High School proudly accepts its membership in the Southern Association of Colleges and Schools, being ever mindful of the responsibilities incurred by this acceptance. Therefore, we pledge our united efforts to continuous improvements of the schools program, so that the needs of the students and the community can be more adequately met.

EPILOGUE

Together we face the closing pages of our high school days as the end of our Senior Year draws near. Though it may be true that, after this year, we will go on our separate paths of adult life, we will still remain together in our memories of these wonderful years at Wampee.

We have seen Wampee change and prosper during our high school career. New educational equipment has been added, new trophies have been added to our trophy case, and we have been accepted into the Southern Association of Secondary Schools and Colleges. Along with these changes will forever remain familiar sights; Seniors pulling rank at the lunchline and water-fountains, smoking area pranks, and young lovers on the front lawn and by hall radiators. When we leave, new faces will take our places and the cycle of school life will keep going on.

Always, forever, will remain the honor and pride for our school. That same honor and pride with which we together prepare to leave.
